

16L-N

Table type steam sterilizer

Characteristics

1. SS304 chamber, one piece, without welding.
2. SS304 tray and rack, The rack could be in two directions.
3. Gasket is easy to be cleaned.
4. Temperature digital display.
5. Temperature deviation is less than 0.5℃
6. Imported Italy Sirai Valve.
7. 1800W heating elements, speed up the heating, more efficient.
8. With Water Tank

Technical Specifications

PARAMETER	16L-N
Chamber Capacity	16L
European Class N	
Sterilization temperature	121℃/20min, 134℃/6min
Power	1800W
Chamber Size	φ250*355mm
Product Size	440X575X370mm
Voltage	220V
Frequency	50Hz
