

23C.V

Electric Suction Device

(mobile)

Features

1. Imported membrane pump with longer life
2. Low noise and maintenance-free
3. With overflow protection unit to prevent liquid from getting into pump body
4. Be equipped with hand switch and foot switch
5. All plastic enclosure which is formed in one piece
6. Used for operations and wards for taking out puts, blood, sputum and other thick liquid from human body.

Technical Specifications

PARAMETER	SPECIFICATION
Power Voltage	AC 220V $\pm$ 10%, 50Hz $\pm$ 2%
Suction Rate	$\geq$ 40L/min
Negative Pressure Range	0.013-0.09Mpa (680mmHg)
Suction Bottle	2500mlx2
Input Power	400VA
Noise	$\leq$ 65dB
