

90-4 Centrifuge

Specifications

- This pivot, gate used high strength project plastic made, with safely switch, beautiful sculpt, low noise, high efficiency, can be used in hospital widely, bio-chemistry lab, making determination analyzing to blood serum and blood plasma immunity.
- Rotating speed range: starting~4000rpm, pointer show speed
- Capacity: 15ml*18
- Clocking range: 0~30min
- Centrifugal force: 2325xg
- With mechanical lock
