

BAT-C04P

SPA Bathing Tank

(Stainless steel)

Features

4. Stainless steel bathtub with SPA function
5. Available for 3 sizes.
6. Equipped with a control knob, the operator can control the intensity and time of water flow bubbles.
7. The auxiliary hot air function helps maintain the original water temperature.
8. This bathtub has good sealing and can be used for pet medicated baths.
9. There is a pet restraining ring above the bathtub to facilitate pet restraint.
10. The bottom adjustment screw allows the device to be placed stably even on uneven floors.
11. The entire pet bathing sink is made of 1.2mm 304 stainless steel brushed plate, which is sturdy, durable and does not rust.
