

MJ160/MJ250 Mould Incubator

Features

- Disinfection by ultraviolet light
- Microcomputer intelligent temperature control, accurate and reliable
- LCD display temperature and time.
- Stainless steel chamber, with safety lock
- Working room with lighting, intuitive and clear
- Over temperature alarm
- Automatic alarm after operation

Technical Specifications

MODEL	MJ160	MJ250
Capacity	186L	250L
Temperature range	5-50°C	5-50°C
Temperature accuracy	±1°C	±1°C
Heating power	100W	142W
Compressor Power	124W	200W
UV lamp power	30W	40W
Timer	0-9999min	0-9999min
Voltage	220V 50Hz	220V 50Hz
Dimension	550x530x1630mm	610x540x1700mm
Package	650x620x1740mm	710x650x1800mm
G.W./N.W.	92/64KG	113/78KG
