

P5L External Ultrasonic Scaler

(External)

Technical Specifications

Power: 220H-240V, 50Hz

Input: 38VA

The Tip Vibration Offset of the Output: $1\mu\text{m}$ - $100\mu\text{m}$

The Peak Vibration Frequency of the Output: $28\text{kHz}\pm 3\text{kHz}$

Half Offset of Output: 0.1N-2N

Ultrasonic Output Power: 3W-20W

Influent Pressure: 0.01MPa~0.5MPa

Host Weight: 0.2kg

Host Insurance: T1.6AL 250V

Functions

The ultrasonic scaler uses the micron-level vibration of the ultrasonic energy-concentrating transducer to remove tooth stains, which can effectively prevent gingivitis and periodontitis.
