

T.IIB Hanging Tower

Introduction

T.IIB Surgical Pendant is a necessary equipment for modern clean operation rooms, general operation rooms and ICU sickrooms. All kinds of terminals such as for medical gas, electricity, and network are all gathered on the control board. Some medical machines of certain weight can be placed on the board and drawer.

Features

- The control cabinet of the tower crane adopt imported high-strength aluminum alloy of patent technology for the one-off extrusion molding, and the surface undergoes the primary oxidation treatment.
- Aluminum molding tray with non-slip texture.
- Mechanical friction damping brake.
- Gas pipeline, power supply and computer communication line are separately arranged without interference.
- The tower adopts German standard gas terminal (over 20,000 of inserting and pulling out).
- With function of rotation horizontally, precise positioning without drift.

Basic configuration

Four power outlets, one internet outlet, one oxygen, one compressed air, one suction gas (German style terminal) (optional gases).
