

YD-L25D LED Veterinary Examination Lamp

(Emergency)

Features

YD-L25D LED minor surgical light uses high-performance LED chips, combined with a large surface cooling area to avoid any centralised heating problems, thus maintaining all LEDs at a low temperature, significantly increasing the luminaire operating life.

Technical Specifications

PARAMETER	SPECIFICATION
Illuminance	$\geq 80,000\text{Lux}$
Color Temperature	$3800\pm 300\text{K}$ $4800\pm 300\text{K}$
Color reduction index(Ra)	97
Size of Light Field	195mm
Lamp head diameter	450mm
Rated power of bulb	3.2V/1W
Service life of illuminant	50,000h
Power Supply Voltage	AC110V-240V, 50/60Hz
Total power consumption	60VA
Total LED Bulb quantity	25pcs
Emergency time	6h
